HYL 5R Sharpy

The Litelees 5R Sharpy is a powerful and versatile beam light suitable for both indoor and outdoor events. Equipped with a 5R Philip Platinum Lamp, the SSL 5R Sharpy boasts a dazzling color temperature of 8000K, ensuring captivating and vibrant lighting displays. Its electronic ballast ensures reliable performance and smooth operation, making it a reliable choice for dynamic lighting effects.

With an HQ glass lens and zoom capabilities from zero to 3.8, this fixture offers precise control over its 16 channels, providing endless creative possibilities. The color wheel features 14 colors with adjustable rotation speed, double direction stream, and a rainbow effect, creating stunning color displays.

With advanced features like the fixed gobo wheel with 17 gobos and open, 8-facet rotating prism, and frost effect, the SSL 5R Sharpy adds depth and dimension to your lighting designs. Its high-temperature protection and Pan/Tilt fine function Auto Correction ensure stability and accuracy in any setup.

Embrace the power and versatility of the SSL's 5R Sharpy for unforgettable lighting experiences, whether it's an indoor concert, outdoor event, or any other occasion that demands exceptional lighting effects.
