# HYL LED Strobe

The SSL RGB LED 1000W Strobe is a powerful and dynamic lighting fixture designed to elevate your events with stunning strobe effects and vibrant RGB color mixing.

The SSL RGB LED 1000W Strobe features 1000 high brightness LED 5054 SMD lamp beads, each with a power of 1.0W, ensuring bright and uniform lighting. The strobe effect is complemented by a captivating Rainbow Effect, creating a dynamic visual display that enhances any atmosphere.

Equipped with 16CH/6CH control modes and 5 zones, this strobe light provides versatile control options, allowing you to achieve the perfect lighting setup for your event. Whether using DMX, Sound, or Auto mode, you can effortlessly synchronize the lighting with your music or program it to run autonomously.

The Strobe Speed can be adjusted from 0~20/5, and the Dimmer allows precise 0-100% linear electronic dimming, granting you full control over the intensity and speed of the strobe effects.

Whether you're hosting a concert, party, or special event, the SSL RGB LED 1000W Strobe will add a dynamic and mesmerizing element to your lighting design, leaving a lasting impression on your audience.
