SSL 350W Follow Spot

The "SSL 350W Follow" is a powerful and reliable follow-spot light designed to elevate your stage performances and events. Equipped with a high-performance YODN 15R 330W lamp, it provides exceptional color temperatures of 3200 to 6500 respectively, ensuring brilliant and vibrant lighting effects while conserving energy.

With a zoom angle that can be easily adjusted between 5° and 10°, the SSL 350W Follow allows precise control over the beam width, catering to various applications. Its variable electronic dimmer enables seamless intensity adjustment from 0% to 100%, giving you ultimate control over your lighting design.

Experience smooth movement and precise positioning with the SSL 350W Follow's versatile operating position. Whether in theaters, concerts, live events, or broadcasts, this spotlight guarantees exceptional performance, illuminating your stage with unmatched brilliance
