4-Way LED Molefay Warm

The SSL 4-Way LED Molefay – commonly known as 'audience blinders', is a powerful lighting fixture designed to captivate and mesmerize audiences with its stunning illumination.

The 4-Way Blinder features four high-performance 100W powerful bulbs in a warm color, ensuring a striking and impactful light output.

The Variable electronic dimmer (0-100%) enables you to achieve the perfect lighting intensity for every occasion. The SSL 4-Way Blinder is available in two channel options – 4 and 8 channels, providing you with the desired level of control.

With a wide beam angle of 60°, the SSL 4-Way Blinder delivers a broad and impressive coverage, illuminating large areas with ease. Whether for concerts, theaters, live events, or television productions, this fixture proves to be a versatile and invaluable asset for lighting designers, setting the stage for unforgettable experiences.
